USO TENT (17×45m) INTERIOR VIEW

AMERICAN TENTS

KNOW ABOUT OUR PRODUCTS

Our American Tents are made from PVC (polyvinyl chloride) coated woven polyester fabric (Weather Covers) and Mild Steel Tubes (Steel Structure Frames). These Tents are

- Fire retardant
- 100% Water Proof
- Withstand Wind load 75mph (120kph)
- Withstand Gusty Wind upto 100mph (160kph)
- Fungus & Mildew Resistant
- Easy installation
- Snow load 20lbs/sq.ft (97.5 kg / m²)
- Easy to clean and dry
- Especially designed against the harsh climate
- Easy Disassembly, Relocation & Re-Assembly.

Our Insulated tents are tremendously innovative invention of modern growing technology and we are very proud to say that our insulation technology is highly appreciated by our existing valuable customers.

It will reduce around 40 to 45% of Air conditioning requirement than an ordinary single cover PVC coated fabric (Non Insulated) meaning more energy is saved using insulation tents.

CONTAINERIZED UNITS

KNOW ABOUT OUR PRODUCTS

Benefits

- Can built as two-storey
- Quick and easy
- Dimensionally exact
- Thermally efficient
- Environment friendly
- Strong & durable
- Portable style, easy to transport and store
- Available with numerous options, such as inner partitions, kitchens and showers
- Finished units can be changed by adding or deducting more units
- Easily handled and requires regular lifting equipment and ordinary tools for assembly

CONTAINERIZED UNITS

KNOW ABOUT OUR PRODUCTS

The containerized unit are demountable flatpack containers and composed of pre-painted sheet steel frame work. Polyurethane foam insulated sandwich panels are used for wall panels and roof panels. The wall panels are interchangeable so that the doors and windows are fitted in any perimeter position.

Demountable flatpack units are designed for stacking in their disassembled and assembled forms. Minimal lifting equipment required for assembly. It can be erected with minimal foundation like level blocks, flat compacted soil etc. Disassembled containers allow for Low Ocean / road transport cost and can provide high wind resistance and earthquake resistance.

-  Accommodation Units
-  Ablution Units (Toilet & Shower)
-  Mobile Camps
-  Offices
-  Dining Units
-  Processing Trailers

These can be supplied as complete turnkey projects. Units can be joined together relatively easy to form buildings of different sizes, as per the client's requirements. Customisable with partition walls, windows, doors, stairs, canopies and flat or sloped roofs.
